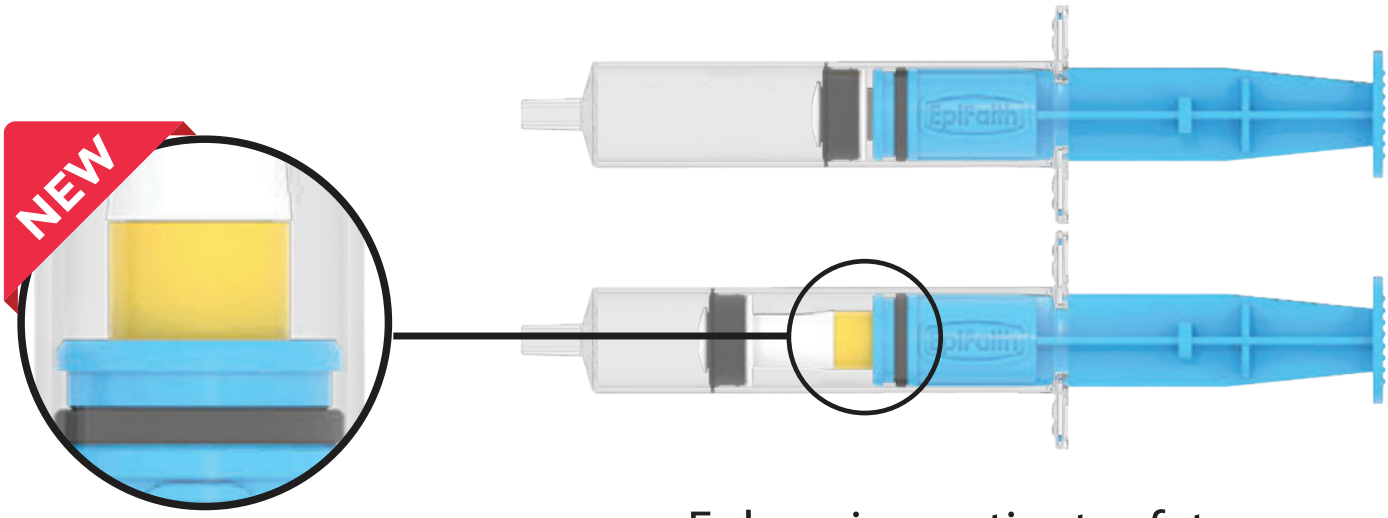
# EpiFaith® Smart Syringe

PRAIRIE HEALTH VENTURES

## Our award-winning syringe is designed to bring a new level of safety and confidence to epidural procedures



As the needle enters the epidural space, a **yellow Smart Signal** appears, confirming proper placement.

- ✓ Enhancing patient safety and reducing complications
- ✓ Decreasing wet taps
- ✓ Improving needle placement proficiency
- ✓ Positively impacting hospital patients experience score

We'd love to continue the conversation and explore how EpiFaith can support your team and your patients. **Would you be open to a brief follow-up call or demo to discuss how this tool can integrate into your workflow?**
