SMALL ROBOT. BIG CLEAN – ON REPEAT

X2 ROVR SCRUB
AUTONOMOUS FLOOR SCRUBBER

Our small autonomous hard-floor scrubber is built to deliver big-machine results in tight, high-traffic spaces, enabling more consistent coverage while delivering an exceptional clean where it matters most.

- Easy integration into your existing floor care protocols.
- Complete predictable, repeatable cycles with the comprehensive X2 Dock RFSH™.
- Remotely schedule cleaning and track key performance indicators with the Tennant Robotics App.
- Support throughout the robot's lifetime from our factory-direct service and customer success teams.

Intelligent autonomous navigation in small spaces
The X2 ROVR's small circular footprint allows it to pivot in place and maneuver within narrow aisles, while SelfPath™ AI enables intelligent navigation for consistent coverage and improved overall operational reliability.

Clean more often with autonomous docking
The full X2 Dock RFSH™ manages charging, recovered water disposal, clean water refill, and chemical dilution, significantly reducing manual touch time and improving run-to-run consistency.

Begin cleaning right out of the box
SmartSetup™ guides users step-by-step from unboxing to their first clean with intuitive, on-screen workflows and on-demand training videos. This built-in onboarding experience reduces startup complexity, accelerates time to value, and minimizes reliance on technician-led setup.

Increase operative confidence
Maximize uptime and maintain machine health with ROVY™, your on-screen cleaning assistant, by helping to address problems before they impact cleaning.

CLEAN AUTOMATICALLY. OPERATE SIMPLY

Complete autonomous docking system
Enable higher utilization and more reliable performance at scale.

Color changing status light
Provides visual information regarding machine status.

Intuitive touchscreen & user interface
Ensure ease of use and efficiency for operators.

Front-facing combination of 3D LiDAR and a 2D camera
Provides reliable obstacle detection at multiple heights.

Small circular design
Nimble navigation for tight spaces.

Velocity-controlled solution flow
Solution flow automatically adjusts to match the robot's operating speed.

Color-coded touch points
For faster, simpler training and maintenance.

Dual-disk scrubbing and 25lb / 11kg downforce
Increase visible cleanliness.

X2 ROVR SCRUB SPECIFICATIONS

Scrubbing path (dual disk)	16 in / 406 mm
Length	27 in / 680 mm
Width	27 in / 680 mm
Height	34 in / 850 mm
Solution tank | recovery tank	3 gal / 11 L
Turning Radius	Pivot-in-place
Autonomous scrubbing battery runtime	2 hours
Weight (tanks empty) w/ battery	220 lb / 100 kg
